September 2003

Step-by Step Instructions for Completing the RERC Reporting Form

The URL for the RERC reporting form is <http://public.rti.org/6742/intro.cfm>. The URL for this instruction manual is <http://public.rti.org/6742/manuals>.

- Information submitted by individual grantees will not be published on the Web for public use, nor will this information be shared with other grantees. NIDRR program staff will have access to your data. RTI (formerly Research Triangle Institute) hosts the Web system and is directly connected to the Internet through an Internet firewall. RTI's Web server has secure socket layering certification that supports 128-bit encryption for data transmission. The reporting system was developed with ColdFusion and SQL.
- Many grantees requested formatting tools be added to the forms to allow them to format text (i.e., bold, italics, underline). This would involve a client side script (i.e., Java), which is highly discouraged in terms of accessibility guidelines. Therefore, formatting tools are not available with this system.
- You are now able to view and print data from prior year's reporting forms. You may also copy and paste the data into another form. To access these data, go to the Table of Contents and scroll to the bottom of the page to the 'Print Data' link. Click on that link and you will have the option to print data from your current reporting period or from other years. You will be able to select reports (to view or print) from your prior reporting periods but you cannot change any of the data from prior year's reports. If you access data from other years, you will have to log back into the system to access your current reporting form.
-

Log-on Screen

This is the first screen you will view and enter to log on to the Web-based reporting system. Grant numbers and passwords are preloaded into the system and your entries must match these for your Center. Every time you enter your form, you must enter your grant number and password for the system to retrieve your data.

- *Public Reporting Burden*—Click here to read the federal authorization for this data collection and the estimated number of hours required to complete this form (public reporting burden).
- *PR/Federal Award Number*—Type in your federal grant number, also known as PR number, using capital letters (where appropriate); do not put any spaces between letters and numbers. Example: H133A000000. Do not enter the "-00" or "dash, numeric, numeric" at the end of the PR Number. Your PR number will appear in the top left corner of each page of your form.
- *Password*—Type in your password, using lowercase letters (where appropriate). RTI staff will have sent this to you. Example: d5ce56s (please note that the numeric number "0" can easily be confused with the letter "o", and the lower case "L" (l) can be confused with the number one (1). If you get an error message after entering your PR number and password, please check your information again and try re-entering. If there is still a message, please contact Lisa McCaskill (RTI, NC) Monday-Friday, 9am-5pm (EST) at lmccaskill@rti.org or (919) 541-8019.
- *Continue*—Click on this button to log on to the system.

When you first log on to the system, you will probably not complete all your data entry at one sitting. To ensure that you don't lose data from one recording session to the next, please

- read the instructions carefully (see below), and
- print out a hard copy of the form to help you collect information you will need and keep track of your progress.

Form Instructions and Tips Screen

This is the first section you will see after initial login. Read all instructions prior to beginning any data entry on the Web. Instructions include information on

- the purpose of the Web-based reporting form
- printing out a hard copy of the document before you start
- how to navigate the system
- general instructions and tips for data entry
- category definitions
- NIDRR and RTI technical assistance contact information

Questions regarding potential uses of the information submitted by individual grantees should be directed to Joe DePhillips (NIDRR) at (202) 205-8187. If you need technical assistance while completing this form, contact Lisa McCaskill (RTI, NC) Monday-Friday, 9am-5pm (EST) at lmccaskill@rti.org or (919) 541-8019.

After your initial login, you can access this section from the Form Progress Table. From this page, you will continue to the General Information/Abstract Section of the form. For grantees who used the Web system last year, the information in this section will be preloaded with the responses you gave in your last report. You will need to review the information and make any changes. After completing this section and the Reporting and Grant Period Section, you will be taken to the Form Progress Table. See below for information about the Form Progress Table.

Form Progress Table

When you log on to the system after completing the General Information/Abstract section and Reporting and Grant Period section, you will see this page; it is a table of contents for your form. - *Form instructions and tips*—Click here to view the purposes of the Web-based form, instructions, and tips for completing and navigating the form.

- *Print data*- Click here to link to the print option. Click on the “Get Data Report” button to bring up a printable version of your data. Use the print function from your browser to print out the generated form. If you are not using Internet Explorer Version 4 or higher, all pages will print but with no breaks between sections.
- *Submit completed APR*- Click here when you are ready to submit your report as final. After clicking on the “Submit Completed APR” button, the data are locked (i.e., these are your final answers). In Section 9 (a), you will provide the number of publications you produced from all Center projects during this reporting period. You may include documents that are currently accepted for publication or in press. Counts should be unduplicated; if a journal article was also published as a book chapter, only count it one time, not two. You may choose which category to count the publication in. (Click on the publications link to view a list of publication types by category.)

- Enter the number of peer-reviewed publications, including journal articles/full-length papers/monographs, short papers/notes/letters, books/book chapters, and conference papers.

Examples of the type of information to enter in this box: (1) "We have drafts of four journal articles that will be submitted for peer review; a draft of a short paper for a non-peer-reviewed publication, and three conference proceedings that will be completed in the coming months." Do not enter documents that are currently in review, accepted for publication, in press, etc. Enter one citation at a time, clicking on the “Add to list” button to submit the reference to the system’s database before entering additional citations. Below are basic instructions for APA format. Please consult an APA manual for further instructions on the order of the information. The Web system does not allow for (1) entry of italics or underlining, or (2) entering more than one citation at a time. (This is not permitted because NIDRR would lose the ability to count individual citations; they would appear as only 1(one) entry in the database).

If you would like to report other types of dissemination (demonstrations or other means of promoting your products), use the “Add Notes” button at the bottom of the page.

- Indicate whether your Web site is accessible to people with disabilities; that is, it meets Section 508 guidelines, W3C Priority I guidelines, or is “Bobby-approved”.
- Enter the total number of individual files that appear as Web pages (i.e., the distinct number of information pages on your web site. **Ask your web site developer/programmer for this information.** The number will vary from 1 to 100+. Do NOT COUNT the files that actually combine to make up a single page. For example, a website may have 80 distinct pages, organized into a hierarchy four levels deep. A single page displayed by a user's browser may be produced by several different files, such as an .asp page (which includes both a header and a footer file (inc.), several image files (.jpg), and maybe a style sheet (.css), and a template file.) The count you enter for this answer is 80, the distinct number of displayed pages, not the component files that produce the pages.
- Enter the average number of page views (requests) per day. (Almost all Web-tracking software will provide you with this information. This number will vary from 100+ to the thousands. If you currently do NOT use any Web-tracking software, you need to in order to provide this information as well as other data requested in this section. You can obtain FREE Web-tracking software from Analog at <http://www.analog.cx>. Analog's default report provides 'Average successful requests for pages per day' – you would enter that number to respond to this question.)
- Enter the average amount of data transferred (in mega bytes) per day. (This number will vary from 1 to over 100+. Analog software also provides this information in its default reports. You can also request other reports from Analog that will provide you with more detailed information about your Web site's traffic.)
- Enter the number of links from your Web site to other individual sites with assistive technology content.
- Click on the drop-down arrow to indicate (Yes/No) whether your project has a listserv.
- If you have a listserv, enter the number of listserv(s) your project manages, number of individuals/entities on the listserv(s) and the number of mailings to the listserv.

- Indicate the types of materials distributed through your project's Web site during the current reporting year by clicking the square beside the appropriate material (architectural related, communication, employment, general, information technology, public accommodations, state and local government, transportation, and Other). A check mark will appear for each answer you choose. If you choose the “other (please specify)” box, enter the specific type of material(s) in the corresponding text box.

Spell Check Software

Spell check software (product name: Spellex) that meets the 508 accessibility requirements is installed on all pages of the Web reporting form that include a text box. This software is not installed on the pages that only have an "other specify" response choice. To use the spell check, click on the "check spelling" button at the bottom of the page after you type your information in the text box. The software will check the spelling in the text box and offer suggestions if a word is spelled incorrectly. If a word is misspelled, you can chose from the following options:

- *Ignore* – Click on this button if you want to ignore the spelling error.
- *Ignore All* – Click on this button to ignore a spelling error that occurs more than once in the same text box.
- *Change* – Click on this button if you want to change the spelling of the misspelled word. The dictionary will recommend a suggestion in the "Change to" box. If the suggestion provided in the "Change to" box is correct, click on "Change" button to use the suggestion. If the suggestion in the "Change to" box is incorrect, choose another word from the list provided in the "Suggestions" box by clicking on the correct word you want to use or by just typing in the correct response in the "Change to" box. After you click on the word, it will appear in the "Change to" box. You will then need to click on "Change" button to actually change the word in your text.

- *Change All* – Click on this button if you want to change the misspelling of a word that appears more than once in the same text box. Follow the same instructions given for the “Change” button above.
- *Add* – Click on this button if you want to add a word to the dictionary.
- *Cancel* – Click on this button if you want to cancel the spell check.

When the spell check is complete, a box will appear that says, “Spelling check complete.” Click on the “OK” button to close this box, end the spell check, and return to the other questions in a section.

Form Definitions

Below are definitions of terms that appear throughout the NIDRR Annual Performance Report form. You can link to this page from any section of the form where these terms are used.

This list is a work in progress that stems from your questions and requests for information. You may need to consult your program priority documents and other research specific regulations for definitions that apply to your individual grants. The NIDRR Web site contains program specific information <http://www.ed.gov/offices/OSERS/NIDRR/Programs/>

These definitions come from three sources of information. At the end of each definition, each source will be identified by one of these source numbers and a regulations reference, as needed. Explanations used to illustrate or clarify the content required in a question on the report form appear without any reference or as a NOTE.

The three sources and their Web sites are:

- 1) The Federal Register / Vol.62 No.25/ Thursday, February 6, 1997/Rules and Regulations, Part V, Department of Education, Office of Special Education and Rehabilitative Services, 34 CFR Parts 350, et al. Disability and Rehabilitation Research Projects and Centers program; Final Rule.
